Irritating, will injure eye tissue if not removed promptly. Immediately rinse with water at least 15 minutes. Retract lids often. Call a physician.

**Skin Contact**

No effect. Low order of toxicity. Flush with water for 15 minutes. Call a physician if symptoms persist.

**Inhalation**

High vapor concentration is irritating to the eyes and the respiratory tract. May cause headaches or dizziness. Remove victim to fresh air immediately.

**Ingestion**

Minimal toxicity. May cause bronchopneumonia or pulmonary edema. If swallowed, do NOT induce vomiting. Keep at rest. Get prompt medical attention.

**Indication of immediate medical attention and special treatment needed, if necessary****Notes to Physician**

**Specific Fire-Fighting Methods**

No information available

**Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

**Personal Precautions** No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing mists or vapors. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

### Environmental Precautions

**Environmental Precautions** Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution.

### Methods and materials for containment and cleaning up

**Methods for Cleaning Up** Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements, or confined areas. Contain and collect spillage with non-combustible, absorbent material and place in container for disposal according to local regulations.

## 7. HANDLING AND STORAGE

### Precautions for safe handling

**Handling** Use appropriate personal protective equipment. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep tightly closed when not used. Do not reuse container. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking or smoking.

### Conditions for safe storage, including any incompatibilities

**Storage** Store in original container away from direct sunlight in a dry, cool, well ventilated area. Keep container closed and sealed until ready for use.

**Incompatible Products** Strong oxidizing agents

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### Exposure Guidelines

#### **General protective and hygienic measures**

No information available.

#### **Appropriate engineering controls**

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

### Individual protection measures, such as personal protective equipment

**Eye & Face Protection** Wear approved safety goggles where a splash hazard exists.

**Hand & Skin Protection** Wear suitable protective clothing.

**Respiratory Protection** Ensure adequate ventilation, especially in confined areas.

**Hygiene Measures** Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking or using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.
